Location: Kadapa, Andhra Pradesh

Professional Summary

Computer Science Engineering (Artificial Intelligence & Machine Learning) graduate with hands-on experience in full-stack software development, AI integration, and machine learning. Proficient in Java, Python, JavaScript, SQL, React.js, Node.js, Express.js, Django, and REST APIs. Experienced in building and deploying AI-powered web applications, mobile applications, and machine learning solutions. Strong foundation in Object-Oriented Programming (OOP), Data Structures, Software Development Life Cycle (SDLC), RESTful API development, and problem solving. Completed AWS Cloud Practitioner (CLF-C02) coursework.

Core Skills

- **Programming Languages:** Java, Python, JavaScript, SQL
- **Frontend:** React.js, React Native, HTML5, CSS3, Vite
- **Backend:** Node.js, Express.js, Django, REST APIs, JSON, MVC Architecture
- **Databases:** SQL, Database Design
- **AI / Machine Learning:** TensorFlow, Keras, Scikit-learn, OpenCV, LSTM, RNN, Prompt Engineering
- **Cloud & Deployment:** AWS Cloud Practitioner (CLF-C02) – Coursework, Vercel, Render, REST API Deployment
- **Tools:** Git, GitHub, VS Code, Expo, Postman
- **Core Concepts:** OOP, Data Structures, SDLC, Agile, CI/CD Basics

Project Highlights

- **AI Resume Analyzer** – Full-stack AI-powered resume analyzer using React.js, Node.js, Express.js and Groq Llama 3.3 with ATS scoring, PDF parsing, skill extraction, and AI-generated resume suggestions.
 - **Online Shopping Mart** – Full-stack web application using Java, Django, React.js, SQL, and REST APIs.
 - **Cryptocurrency Market Prediction** – Deep learning-based forecasting system using Python, TensorFlow, LSTM, and RNN.
 - **Gesture-Controlled Presentation System** – Real-time hand gesture recognition system using OpenCV and Computer Vision.
 - **Government Schemes Web Portal** – Centralized portal developed using Django, HTML, CSS, and JavaScript.
 - **Personal Wellness Mobile App** – Feature-rich React Native (Expo) app with journaling, music player, mood check-ins, memories, and themed persona screens.
-

Education

Bachelor of Technology (B.Tech)

2025

Computer Science and Engineering (Artificial Intelligence & Machine Learning)

Vel Tech Rangarajan Dr. Sagunthala R&D Institute of Science and Technology, Chennai

Technical Projects

AI Resume Analyzer

React.js, Node.js, Express.js, Groq API, Llama 3.3, JavaScript, HTML5, CSS3, REST APIs

GitHub: Repository **Live Demo:** View Project

- Developed and deployed a full-stack AI-powered Resume Analyzer that automates ATS scoring, skill extraction, resume section analysis, and AI-generated feedback using Groq Llama 3.3.
- Implemented PDF resume parsing, ATS compatibility scoring, and intelligent resume section analysis for automated candidate evaluation.
- Integrated Groq Llama 3.3 API to generate AI-powered resume improvement suggestions.
- Implemented automated skill extraction, missing keyword detection, and ATS compatibility analysis to improve resume optimization.
- Designed and integrated RESTful APIs, deploying the frontend on Vercel and backend on Render for cloud-based accessibility.

Online Shopping Mart – Full Stack Web Application

Java, Django, React.js, SQL, REST APIs

- Designed and developed a full-stack e-commerce web application.
- Integrated SQL database operations, backend business logic, and authentication features for seamless user interactions.
- Designed RESTful APIs and implemented user authentication to enable secure user registration and login..
- Applied OOP principles to build a scalable and maintainable code architecture.

Cryptocurrency Market Analysis and Prediction

Python, TensorFlow, LSTM, RNN, Pandas, NumPy

- Developed an LSTM and RNN-based deep learning model for cryptocurrency price forecasting using historical market data.
- Performed data preprocessing, feature engineering, and exploratory analysis.
- Implemented time-series prediction pipelines using LSTM and RNN architectures.

Gesture-Controlled PowerPoint Presentation System

Python, OpenCV, Computer Vision

- Developed a touch-free presentation control system using hand gestures.
- Implemented real-time hand gesture detection with OpenCV.

Unified Web Portal for Government Schemes

HTML, CSS, JavaScript, Django

- Developed a centralized information portal for government welfare schemes.
- Built search functionality and responsive user interfaces.

Personal Wellness Mobile App

React Native, Expo, JavaScript, AsyncStorage, Expo AV

- Built a multi-screen mobile application using React Native and Expo Go featuring journaling, daily check-ins, mood tracking, and memories.
- Implemented a fully functional music player with playback controls using Expo AV.
- Designed themed persona screens (Soul, Nature, Magic, ForYou, Explore) for personalized user experience.
- Integrated AsyncStorage for persistent local data storage across sessions.
- Developed 12+ screens including WelcomeScreen, JournalScreen, BirthdayScreen, and MusicScreen with clean navigation using React Navigation.
- Optimized application performance and responsive UI for a smooth cross-platform mobile experience.
- Utilized React Navigation for seamless multi-screen routing and improved user experience.

Certifications

- AWS Cloud Practitioner (CLF-C02) – Course Completion, Udemy
 - AI/ML for Geodata Analysis – IIRS, ISRO
 - Artificial Intelligence Fundamentals – IBM SkillsBuild
 - Machine Learning using Python – Infosys Springboard
 - Power BI for Business Professionals – Infosys Springboard
 - Data Visualization with Tableau – Infosys Springboard
 - Google Android Developer Virtual Internship
-

Additional Information

- Strong understanding of Object-Oriented Programming, Data Structures, SDLC, and REST API development.
- Familiar with Git workflows, Agile methodologies, and CI/CD concepts.
- Excellent analytical, debugging, and problem-solving skills.
- Languages: English, Hindi, Telugu.
